

be happy and smile in gran canaria!

Group travel

Sights & Sounds of Gran Canaria

There's something more to Gran Canaria than sea, sun and sand...

day 1 Capital & Culture

A great half day time travel which takes you from the very heart of the oldest city in the Canary Islands. Visiting the House Museum of Christopher Columbus, where he spent the last days before discovering the New Continent and the old quarter, Vegueta, with its famous Cathedral and Square of Santa Ana to Las Canteras, a long sandy beach situated in the north or the spectacular Auditorium and the cosmopolitan atmosphere of its commercial areas and docks at the port.

day 2 Guanches

Find out the ways and settlements of the old inhabitants of the island (Guanches) on a day full of historical discoveries... From the archeological post of Cuatro Puertas to the green hills of the Guayadeque valley where we can enjoy an exhibition of the old stick fighting or to the Fortaleza settlement where the Guanches of San Bartolomé area decided to commit suicide in order not to be taken by the Spaniards who conquered the island in the fifteenth century.

A stop will be made for lunch with typical canarian dishes at the Sta. Lucía village, a place of great spiritual meaning for the southwestern inhabitants of Gran Canaria.

day 3 Gran Canaria's Best

One of the island's highlights out of the tourism resorts of the south, visiting Fataga, a small typical canarian village which has won prizes as the tidiest town in Europe, the lake of Chira, the impressive and breathtaking views from El Pozo de las Nieves where we can even see the neighbouring island of Tenerife and El Teide (the highest mountain of Spain) if the weather conditions allow it. Teror, a pilgrimage place for all canarians, is also a compulsory visit on this day along with the Arucas town with its rum factory, famous worldwide.

day 4 Departure

Bye bye...
